1                                    MEMORANDUM OF POINTS AND AUTHORITIES

2        I.        STATUS OF THE CASE

3            A.        Trial Status

4            On December 22, 2015, defendant Rami Najm Asad-Ghanem  
5        ("defendant") was charged in an original four-count indictment (the  
6        "original Indictment") with violations of 22 U.S.C. § 2778 (Arms  
7        Export Control Act), 18 U.S.C. § 554 (Smuggling), and 18 U.S.C.  
8        § 1956(a)(2)(A) (Money Laundering). A superseding indictment filed  
9        on March 24, 2017, charged defendant with three additional counts  
10       alleging violations of 18 U.S.C. § 372 (Conspiracy), 22 U.S.C. § 2778  
11       (Arms Export Control Act), and 18 U.S.C. § 2332g (Conspiracy to Use  
12       and to Transfer Missile Systems Designed to Destroy Aircraft) (the  
13       "First Superseding Indictment" or "FSI"). On June 22, 2018, the  
14       Court granted the Government's Motion for Joinder Pursuant to  
15       Rule 13, thus joining the original Indictment and FSI for trial.

16            On July 20, 2018, defendant filed a notice withdrawing his  
17       previously-filed jury trial waiver. Trial is set to commence on  
18       October 30, 2018, at 8:30 a.m. Defendant is in custody pending  
19       trial.

20            On October 22, 2017, the Court granted the Government's  
21       unopposed application for a pre-trial ruling on the government's  
22       proposed trial indictment, thereby combining the charges in the  
23       original Indictment and FSI into a single Trial Indictment to be  
24       provided to the jury, with an appropriate cautionary instruction that  
25       the indictment or summary thereof is not evidence.

26

27

28

1           **B.     Length of Trial**

2                 1.     Number of Witnesses

3           The government expects that its case-in-chief (with a reasonable  
4 allotment for cross-examination) will take three weeks to present.  
5 The government may call the following witnesses in its case-in-chief:

- 6           1.     Homeland Security Investigations (HSI) Special Agent (SA)  
7                 Matthew Peterson
- 8           2.     HSI Undercover Agent known to defendant as Nader Kalani
- 9           3.     HSI Source of Information, name known to defendant and his  
10                counsel
- 11           4.     Dr. Robert Doherty
- 12           5.     Dr. Peter Bartu
- 13           6.     Sandro Kavsadze (recorded testimony pursuant to Rule 15)
- 14           7.     Gia Devidze (recorded testimony pursuant to Rule 15)
- 15           8.     Zurab Partsakhashvili (recorded testimony pursuant to Rule  
16                15)
- 17           9.     State Department employee Simon Davidson-Hood
- 18           10.    Defense Department employee Timothy Williams
- 19           11.    Hellenic National Police Lieutenant Aris Zagakos
- 20           12.    HSI Foreign Service National Investigator William Tsakis
- 21           13.    HSI Special Agent David Stone
- 22           14.    Bureau of Prisons employee Tammi Greer

23           Defendant has indicated his intent to enter into a stipulation  
24 to the accuracy of certain translations from Arabic and Russian.  
25 Should defendant not enter into those stipulations, the government  
26 would also call the following witnesses:

- 27           15.    Faiza Sultan
- 28           16.    Hanadi Thomas

1           17. Katherine Hilkert

2   The government may call other witnesses as needed to establish the  
3   authenticity of government exhibits and the accuracy of translations  
4   of both written and recorded communications.

5           The government may seek to introduce evidence pursuant to  
6   stipulations or through judicial notice. The government may also  
7   call rebuttal witnesses if necessary following defendant's case.

8           In letters dated July 23, August 31, and October 17, 2018 the  
9   government provided notice under Federal Rules of Evidence 702, 703,  
10   and 705, Federal Rule of Criminal Procedure 16(a)(1)(G), and  
11   paragraph 10(b)(x) of the Court's standing criminal trials order that  
12   some of the anticipated testimony of witnesses whose testimony may be  
13   considered expert testimony, including the following: Robert A.  
14   Doherty, Ph.D, Peter Bartu, Ph.D, Simon Davidson Hood, Timothy  
15   Williams, Robert Whittington, HSI SA Matthew L. Peterson, and various  
16   linguists.

17           The letters identified the subject matter of the anticipated  
18   testimony as well as the qualifications of each witness to provide  
19   such testimony. The Court ordered that any objections to the expert  
20   disclosures be made before trial, so that they could be considered at  
21   a pre-trial hearing. (Dkt. 148.) Defendant made no such objections.

22           Pursuant to a Court order, the parties provided reciprocal  
23   disclosure of witness lists on September 28, 2018. Defendant gave  
24   notice that he intends to call one witness, Aref Al Zaben. The  
25   government has moved to preclude that witness on the basis that  
26   pursuant to defendant's offer of proof, the witness could only offer  
27   testimony that is irrelevant, is hearsay, or has already been  
28   precluded by the Court's order as to defendant's noticed defense of

1 public authority. The Court has ordered defendant to make a more  
2 detailed offer of proof by Monday, October 29.

3 The Court ordered also the parties to provide reciprocal notice  
4 of any expert testimony. Despite passage of the original deadline  
5 and a subsequent deadline months ago, to date, defendant has provided  
6 none. To the extent defendant attempts to introduce or call any  
7 expert testimony at trial, the United States reserves the right to  
8 object to such testimony and to seek to have such testimony  
9 precluded.

## 10 2. Exhibits

11 The government intends to offer approximately 500-600  
12 documentary exhibits in its case in chief. This number is a small  
13 fraction of the many tens of thousands of highly relevant documents  
14 revealed by the investigation.

## 15 C. **Discovery and Affirmative Defenses**

16 The United States has also requested reciprocal discovery and  
17 Jencks material from defendant. To date, defendant has provided the  
18 government with a stack of documents that purportedly describe the  
19 SOI's criminal history. Defendant has not produced any other  
20 reciprocal discovery to which the United States is entitled under  
21 Rules 16 and 26.2 of the Federal Rules of Criminal Procedure or the  
22 Jencks Act. Thus, to the extent defendant attempts to introduce or  
23 use any documents at trial that he has not previously produced, the  
24 United States reserves the right to object and to seek to have such  
25 documents precluded. On October 22, 2018, the Court granted in part  
26 the Government's motion to preclude defendant from offering evidence  
27 or argument of the SOI's purported criminal convictions, thereby  
28

1 precluding defendant from offering the aforementioned stack of  
2 documents as evidence at trial.

3 The government also requested notice of any affirmative defenses  
4 that defendant intends to raise, including entrapment, mental  
5 condition, and duress. Defendant notified the Government of his  
6 intent to pursue (1) an entrapment defense with respect to the  
7 charges in the original Indictment and (2) a public authority defense  
8 with respect to the charges in the FSI.

9 On June 21, 2018, the Court denied the Government's motion to  
10 preclude the entrapment defense and granted the Government's motion  
11 to preclude the public authority defense.

## 12 **II. STATEMENT OF FACTS**

13 The government expects that the evidence at trial will  
14 establish the following facts, among others:

### 15 **A. Defendant's Initial Contacts with HSI**

16 In May 2014, a Los Angeles supplier of military goods advised  
17 HSI that Defendant had contacted the supplier to solicit a business  
18 relationship. HSI conducted background investigation on Defendant  
19 and subsequently learned that an existing HSI SOI had worked with  
20 Defendant in the security-procurement business many years before.

21 In June 2014, at HSI's direction, the SOI re-established contact  
22 with Defendant via email and telephone. In July 2014, at HSI's  
23 direction, the SOI introduced Defendant by phone to the HSI UCA based  
24 in Los Angeles. During their initial phone conversation, which was  
25 recorded, Defendant said that he needed various weapons and other  
26 military equipment. The UCA told Defendant that he could help  
27 procure some of Ghanem's requested items, including sniper rifles and  
28 night-vision optics, but that the order would have to be "under the

1 table." Defendant affirmed that he wanted to proceed with the  
2 transaction and that he understood the risks involved, noting that he  
3 is also a U.S. citizen and is therefore "in the same boat."

4 The UCA sent Defendant pricing information for several military  
5 items that Defendant had requested in the phone call, including 200  
6 US-made M-4 carbine assault rifles. In a subsequent recorded phone  
7 conversation in August 2014, Defendant and the UCA planned an in-  
8 person meeting in Greece in September 2014 to discuss business  
9 operations, including the outstanding order for M-4s as well as  
10 larger future orders. During that call, Defendant said that he had a  
11 strong market with Shi'a groups in Iran, Iraq, and Lebanon, and he  
12 again affirmed that he did not intend to apply for an export license  
13 and that the transaction would be "under the table."

14 **B. First Meeting with the UCA**

15 On September 18, 2014, Defendant met with the UCA and the SOI in  
16 Athens, Greece. During this meeting, which was recorded, Defendant  
17 advised that his network in Beirut, Lebanon, includes a contact that  
18 Ghamen believed was connected to the designated terrorist  
19 organization known as Hezbollah. Defendant also said that he had  
20 requirements for goods – including Bell helicopters and F-5 and F-14  
21 military fighter jets – on behalf of Iranian customers that he did  
22 not identify. Defendant provided the UCA with documents partially  
23 written in Farsi (the official language of Iran) that addressed these  
24 requests.

25 During the meeting, at defendant's request, the parties agreed  
26 not to make future references to Iran, and to instead use the cover  
27 term "Ireland" when discussing Iran. Defendant made reference to his  
28 "black market" activities in the Eastern Block and stated that he

1 could get "anything" for the UCA from there. Defendant further  
2 reaffirmed his understanding of U.S. legal requirements for export  
3 licenses and end-user certificates, noting that he needed to be  
4 careful because he is a U.S. citizen. Defendant noted that he was  
5 dealing with Hezbollah in Iraq, and also that he had a weapons market  
6 in Africa.

7 At this meeting, Defendant said that he was looking for a  
8 particular sniper rifle that could cover a distance of 4500-5000  
9 meters. He added that he was dealing with a small U.S. company, and  
10 that he was communicating with a person there who was willing to make  
11 as many of the rifles as Defendant required. Defendant clarified  
12 that they were discussing 500 pieces, and that the rifles would be  
13 custom made for him. Defendant said that his contact told him that  
14 "ITAR" was required and that the contact would not ship the items  
15 illegally. Defendant said that he would obtain cover documentation  
16 for that arms shipment from an Iraqi official, because this shipment  
17 was one area of business to cover "illegally."

18 Defendant and the UCA also discussed at the meeting Defendant's  
19 payment plans for their transaction. Defendant said that cash would  
20 not work, so he planned to use a bank wire to pay. He further noted  
21 that it was his standard practice to use a "cover" contract that  
22 would "change the items" detailed in the contract but give the  
23 correct price.

#### 24 C. Discussions after the First Meeting

25 Shortly after the September 2014 meeting, Defendant e-mailed the  
26 UCA requesting an update on the status of the M-4 rifles that  
27 Defendant had requested. The UCA replied that the 500 M-4s would be  
28 available for delivery within days after Defendant secured funding.

1 In January 2015, Defendant called the UCA. In this recorded  
2 phone call, Defendant expressed reservations about working with the  
3 UCA, saying that it was important to know who he was dealing with,  
4 because "one mistake, and you lose what you built all your life."  
5 Defendant later said that he needed night-vision goggles for "MI-24,"  
6 and the UCA responded that he would look into whether he could  
7 acquire this item. An Mi-24 is an attack helicopter manufactured in  
8 Russia. On this phone call, Defendant and the UCA also agreed to  
9 meet again in person.

10 **D. Second Meeting with the UCA**

11 In March 2015, Defendant again met with the UCA and the SOI in  
12 Athens, Greece, to discuss potential business. On March 10, 2015,  
13 Defendant met with the UCA and the SOI and discussed the UCA's  
14 ability to supply military goods, particularly night-vision goggles  
15 and other military optics. This meeting was recorded. The following  
16 day, the UCA sent Defendant an e-mail confirming the UCA's ability to  
17 supply Defendant with the requested goods. Specifically, the e-mail  
18 notes that Defendant expressed an interest in PVS-14 Night Vision  
19 Goggles, AN/AVS-9 Night Vision Goggles, PVS-27 Night Vision Sniper  
20 Scope manufactured by FLIR, and DBAL-A Infrared Illuminator

21 On March 11, 2015, Defendant engaged in multiple meetings with  
22 the UCA and the SOI to discuss volume and other sales and export  
23 logistical details of the military optical equipment requested by  
24 Defendant. Defendant and the UCA agreed that the equipment would be  
25 exported from the United States without a license. The UCA showed  
26 Defendant working models of night-vision goggles requested by  
27 Defendant. After inspecting the models, Defendant made two  
28 speakerphone calls to clients whom Defendant believed would be

1 interested in the equipment. One of the prospective buyers asked  
2 where Defendant could deliver the night-vision equipment, to which  
3 Defendant gleefully replied that he could deliver them to the buyer's  
4 "bedroom." Defendant advised the UCA that the prospective buyers  
5 were based in Ukraine. On March 12, 2015, Defendant called the UCA  
6 and told him that Defendant had received positive feedback on the  
7 military optical equipment from potential buyers in Egypt, Ukraine,  
8 and Greece. The UCA later sent Defendant four e-mails containing  
9 datasheets and pricing for each of the four items of optical  
10 equipment that they had discussed.

11 **E. Defendant's Order with the UCA**

12 **1. Negotiations and Order Placement**

13 On March 31, 2015, Defendant sent the UCA an e-mail entitled  
14 "Urgent requirement" requesting specific quantities of the military  
15 optical equipment discussed at the March 2015 meetings in Athens and  
16 inquiring as to the fastest time for delivery. After the UCA advised  
17 defendant of a timeline to procure and ship the requested military  
18 optics, Defendant sent another e-mail asking the UCA to send an  
19 invoice. On April 8, 2015, Defendant advised the UCA that Defendant  
20 had become ill and needed time to recover.

21 On May 12, 2015, Defendant sent the UCA an e-mail containing a  
22 screenshot of another e-mail entitled "URGENT REQUIREMENT OF AMMO."  
23 That e-mail listed several types of missiles, rockets, ammunition,  
24 and other munitions, including "Hell Fire Missile," "2.75 rocket,"  
25 "Tow Missile (A and B)," and "hand grenades." Upon receiving this  
26 message, the UCA called Defendant. In this phone call, which was  
27 recorded, Defendant and the UCA discussed pricing and logistics for  
28 the military optical equipment that Defendant had previously

1 requested. Defendant referred to the e-mail he had sent to the UCA  
2 that day, noting "the list I gave you, which has that Hellfire, the  
3 whole list is very serious." Defendant added that he was "already  
4 supplying the buyer."

5 On July 24, 2015, Defendant sent the UCA a message requesting  
6 Barrett M82A1 .50 caliber sniper rifles, manufactured in the United  
7 States, and Steyr HS .50 caliber sniper rifles, manufactured in  
8 Austria. On July 27, 2015, Defendant sent the UCA another message  
9 asking to expand his order to include 100 US-made "pistols with  
10 silencer." Specifically, Defendant asked, "Also can you provide me  
11 with 100 pistols with silencer any good US even Gluck."<sup>1</sup>

12 On August 4, 2015, the UCA sent an e-mail to Defendant providing  
13 pricing information for 9mm pistols, 9mm pistol barrels, and  
14 silencers for 9mm pistols. On August 5, 2015, in a recorded phone  
15 conversation, Defendant acknowledged that email from the UCA about  
16 the pistols and asked the UCA to proceed with an order for 100  
17 pistols. In the same phone call, Defendant also requested that the  
18 UCA procure on his behalf "at least 10 or 20" .50-caliber sniper  
19 rifles, as well as laser sights. Defendant further requested 50,000  
20 rounds of 9mm ammunition. During this conversation, Defendant  
21 repeatedly asserted that he needed the requested items "ASAP" and  
22 "right away."

23 Later that same day, the UCA sent Defendant an e-mail with  
24 pricing information and financing terms for the 9mm pistol, barrels,  
25 silencers, and ammunition that Defendant had requested. On August 6,  
26

---

27  
28 <sup>1</sup> At trial, the UCA will testify based on his knowledge,  
training, and experience, that he understood "Gluck" to refer to  
"Glock," a manufacturer of firearms.

Defendant called the UCA to discuss the contemplated order. During the call, which was recorded, Defendant requested "more advanced" sniper rifles, ultimately requesting five each of "basic," "medium," and "high-end" sniper rifles. Defendant also requested night vision scopes for the sniper rifles. Defendant further asked the UCA to falsely state on the export documents that the shipment contained juice. Defendant advised that he wanted the shipment to be routed through Greece with an ultimate destination of Libya. Defendant said that the money for the shipment would come from Jordan. On August 7, 2015, in an e-mail to the UCA, Defendant provided the name and contact information for his consignee in Libya.

On August 9, 2015, the UCA sent Defendant an e-mail with a full breakdown of Defendant's requested items, including quantities and pricing. Per Defendant's request, the various categories of military goods were coded as "juice." The grand total for Defendant's order at that stage was \$408,000.

On August 26, 2015, Defendant replied to the UCA's e-mail requesting reductions to the quantity of each of the requested items. That same day, the UCA sent Defendant a message with his revised smaller order. The updated order, which Defendant ultimately placed, came to a total of \$220,050 and included the following items:

Commodity	Manufacturer	Model Number	Quantity	Price Per Unit	Total
Pistol	Kahr Arms	TP9 9MM	40	\$900.00	\$36,000.00
Pistol	Kahr Arms	CW9 9MM	10	\$650.00	\$6,500.00
Barrel	Kahr Arms	Threaded Barrel	50	\$210.00	\$10,500.00
Suppressor	AAC	Evolution	50	\$780.00	\$39,000.00
Laser Sight	Crimson Trace	Laser Sight	50	\$265.00	\$13,250.00

Commodity	Manufacturer	Model Number	Quantity	Price Per Unit	Total
Ammunition	Remington	9MM Luger 115 Grain	50,000	\$18,000.00	\$18,000.00
Rifle	Barrett	M99 .50 CAL	5	\$4,600.00	\$23,000.00
Rifle	Barrett	M95 .50 CAL	3	\$7,100.00	\$21,300.00
Rifle	Barrett	82A1 .50 CAL	2	\$9,600.00	\$19,200.00
Ammunition	American Eagle	.50 CAL BMG- 660 Grain	5,000	\$16,000.00	\$16,000.00
MUNS	FLIR	PVS-27	1	\$10,500.00	\$10,500.00
Night-Vision Goggle	ITT	PVS-14	2	\$3,400.00	\$6,800.00
				<b>GRAND TOTAL</b>	<b>\$220,050.00</b>

The UCA advised that a 40% down payment of \$88,020 was needed to place the order. Per Defendant's request, the UCA called Defendant that day to discuss the order. During this phone call, which was recorded, Defendant said that he was going to pay for the order from his own money because he was unable to reach his prospective customer. Defendant further advised that after this delivery, a "much bigger order" would come. Defendant also requested that instead of "juice," the weapons and other military items be invoiced as industrial generators. During the discussion of his intended bank transfer, Defendant alluded to the illicit nature of their transaction, noting, "we are not dealing with each other as [weapons manufacturer] Bushmaster and [the] Jordan Armed Forces." On August 26, 2015, after the phone call, the UCA sent Defendant an e-mail with an invoice detailing the sale of three types of US-origin industrial generators for a total price of \$220,050. The invoice

1 listed Defendant's previously identified consignee in Libya as the  
2 purchaser. The invoice also included routing information for the  
3 UCA's undercover bank account in the Central District of California.

4           2.   Payments and Shipment

5           On September 2, 2015, Defendant confirmed to the UCA, both by  
6 phone and by e-mail, that Defendant had wired \$90,000 to the UCA's  
7 bank as a down payment on the order. The bank records for the UCA's  
8 undercover account show that a bank wire deposit in the amount of  
9 \$89,971 posted on September 2, 2015. The sender of the wire was  
10 "GATEWAY TO MENA FOR LOGIS."

11           On October 19, 2015, Defendant spoke with the UCA in a recorded  
12 telephone call. Defendant said that he would wire the second  
13 installment of \$90,000 to the UCA that week. Pursuant to the  
14 agreement between Defendant and the UCA, that second payment would  
15 trigger the UCA's obligation to ship Defendant's order from the Port  
16 of Los Angeles to Greece. On the same telephone call, Defendant  
17 committed to meet the UCA in Greece in late November or early  
18 December when the shipment arrived, in order to inspect the shipment  
19 before it was forwarded onward to Defendant's customer in Libya  
20 pursuant to the purchase agreement. The UCA warned Defendant that he  
21 would not ship the container to Libya until Defendant had personally  
22 inspected it, and Defendant agreed that he would definitely come to  
23 Greece to meet the UCA and inspect the shipment after its arrival.

24           On October 22, 2015, a second installment of \$89,971 was wired  
25 to the UCA's undercover bank account from Defendant's company in  
26 Jordan. In late October 2015, HSI arranged for a shipping container  
27 ostensibly containing Defendant's order to leave the Port of Los  
28 Angeles on November 3, 2015.

**F. Defendant's Arrest by the Hellenic National Police and the Seizure of His Digital Devices**

On December 8, 2015, defendant and the UCA traveled to a warehouse near Athens, Greece, where the Hellenic National Police ("HNP") arrested defendant pursuant to a Mutual Legal Assistance Treaty request from U.S. officials.

During Defendant arrest, and later at Defendant's hotel room, the HNP seized from defendant the following six electronic media devices (the "digital devices"), among more than a dozen others:

1. One mobile phone, brand Samsung Galaxy S4 (the "S4");
2. One mobile phone, brand Apple iPhone (the "iPhone");
3. One mobile phone, brand Huawei (the "Huawei");
4. One mobile phone, brand Samsung Galaxy S6 (the "S6");
5. One tablet, brand Apple iPad (the "iPad");
6. One laptop computer, brand Apple MacBook (the "MacBook");

The HNP maintained custody and control of the digital devices until May 4, 2016, when HNP Lieutenant Zagakos Aristeidis hand delivered the digital devices to Tsakis Vasileios (also known as William Tzakis), a Foreign Service National Investigator at the U.S. Embassy in Athens.

On May 5, Investigator Tzakis sent the digital devices via United Parcel Service ("UPS") to HSI's office in Long Beach, California. On or about May 9, 2016, HSI personnel received those digital devices from UPS and checked them into a secure area at the Long Beach office.

**G. The Forensic Examination of Defendant's Digital Devices**

The parties have entered and filed a stipulation as to the following information. On or about May 20, 2016, HSI SA Matthew

1 Peterson retrieved the MacBook, the iPad, the S4 and the S6 from the  
2 secure evidence storage area and provided them to HSI forensic  
3 analysts for extraction.

4 1. The MacBook

5 Using Tableau write blocker and FTK Imager, both of which are  
6 computer forensic tools used for the acquisition of digital devices,  
7 CFA G. Kwan acquired a forensic image of the MacBook, which he  
8 provided to SA Peterson.

9 A forensic image is a bit-by-bit, sector-by-sector direct copy  
10 of a physical storage device. Forensic images include all of the  
11 files visible to the operating system, which are said to exist in  
12 "allocated space," as well as deleted files and pieces of files left  
13 in the slack and free space, which is referred to as "unallocated  
14 space."

15 Thereafter, SA Peterson used EnCase, which is a forensic program  
16 used to analyze data from image files, to review the MacBook image  
17 and to create a bookmarked report of the files he decided to seize.  
18 SA Peterson saved a copy of that report to an HSI computer server,  
19 where it remains available to review, download, and print.

20 2. The iPad, S4, and S6

21 CFA G. Kwan used Cellebrite, which is a forensic program for  
22 mobile devices, to extract images, contacts, call logs, messages, and  
23 device locations from the iPad, S4, and S6. CFA G. Kwan provided  
24 those files to SA Peterson for further review.

25 SA Peterson used Cellebrite to review the files and to create  
26 bookmarked reports of the files he decided to seize. SA Peterson  
27 saved copies of those reports to an HSI server.

1 On or about April 6, 2017, SA Peterson provided the iPhone and  
2 the Huawei to HSI CFA Aaron Kwon ("A. Kwon"):

3 On or before April 10, 2017, CFA A. Kwon used Cellebrite to  
4 extract images, contacts, call logs, messages, and device locations  
5 from iPhone and Huawei. CFA A. Kwon provided those files to SA  
6 Peterson for further review.

7 SA Peterson used Cellebrite to review the files and to create  
8 bookmarked reports of the files he decided to seize. SA Peterson  
9 saved copies of those reports to an HSI server.

10 **H. Defendant's Other Charged Illegal Arms-Trafficking**  
11 **Activities**

12 From SA Peterson's review of the contents of the digital  
13 devices, as well as from other investigation including review of e-  
14 mail search warrant returns and wire transfer records, he learned  
15 about defendant's involvement in other arms-trafficking activities as  
16 charged in Counts Five and Six of the Trial Indictment.

17 The government intends to focus its presentation as to these  
18 charges on evidence of specific transactions alleged in Counts Five  
19 and Six, including defendant's efforts to broker and transfer anti-  
20 aircraft missiles between 2013 and 2015 (summarized below); and  
21 defendant's brokering and transferring of the services of mercenaries  
22 to operate Igla and Quadrat surface-to-air missiles (summarized  
23 below). This presentation will also show the chronology of  
24 defendant's efforts to broker and transfer large quantities of  
25 weapons and ammunition to a militant faction competing for control of  
26 the government of Libya in 2014 and 2015. Evidence of this  
27 transaction includes transmittal of an end-user certificate ("EUC")  
28 numbered 8628-57 for munitions (including 5,000,000 rounds each of

23-millimeter, 14.5-millimeter, and 7.62x54 ammunition, 10,000 GRAD 122-millimeter rockets, 3,000,000 rounds of 12.7-millimeter ammunition, 150 Konkurs anti-tank missile launchers, 1500 Konkurs anti-tank missiles, and numerous other defense articles) and bearing defendant's name as the supplier, as well as defendant's and his co-conspirators' communications reflecting their negotiation of this deal. The evidence also includes a contract, referencing the above-described EUC numbered 8628-57 and bearing defendant's and his co-conspirators' signatures, for over \$249 million in those weapons and ammunition, including the same above-described quantities of heavy ammunition and weapons listed on the EUC.

The government will also present selected evidence of defendant's efforts to transfer the numerous other military articles and services as alleged in Counts Five and Six of the Trial Indictment. This evidence largely draws from the large volume of communications among defendant and his co-conspirators reflecting their negotiations on these proposed deals, as well as from wire transfer records.

#### **I. The Conspiracy to Use Missile Systems**

From SA Peterson's review of the contents of the digital devices, he learned about defendant's involvement in a conspiracy to use and to transfer missile systems, as detailed below.

From approximately late 2014 until the time of his arrest, defendant, along with Mohammed Al-Daboubi, a former general in the Jordanian Air Force, operated a Jordan-based arms trafficking business called Gateway to MENA.

Between February 2015 and June 2015, defendant and Al-Daboubi worked to procure the services of Igla missile system operators to

1 fight in Libya.<sup>2</sup> Defendant simultaneously endeavored to procure the  
2 services of Quadrat surface-to-air missile operators and specialists.  
3 Defendant negotiated with the suppliers of these services, David  
4 Shikhashvili and Sandro Kavsadze, to pay each Igla operator \$10,000  
5 for two months on duty in Libya and offered the operators a bonus of  
6 \$50,000 and an early release from duty if they managed to shoot down  
7 an aircraft. Defendant and Al-Daboubi also arranged for the  
8 operators to travel to Libya. The two Igla operators, Devidze and  
9 Partsakhashvili, along with Kavsadze, traveled to Libya on or around  
10 April 30, 2015, and written communications among the parties confirm  
11 that they were on duty there in May 2015.

12 The evidence as to this transaction includes communications  
13 reflecting defendant's negotiation of the terms of the deal,  
14 including salary and length of service; his payment of \$20,000 for  
15 the services of the Igla operators and \$50,000 for the services of  
16 the Quadrat operators and specialists; his offer of a bonus of  
17 \$50,000 to the Igla operators if they were successful in their  
18 mission of shooting down a jet; and his facilitation of the Igla  
19 operators' travel to Libya in late April 2015. The evidence further  
20 includes the video-recorded testimony of Kavsadze, Devidze, and  
21  
22

---

23 <sup>2</sup> Dr. Robert Doherty will testify at trial that the 9K38 Igla is  
24 a Russian man-portable infrared homing surface-to-air missile system.  
25 The purpose of this system is to destroy aircraft. In their  
26 negotiations and arrangements for Igla operators, defendant and his  
27 co-conspirators typically refer to the system simply as "Igla," but  
28 defendant has in the course of a prior transaction referred to it as  
"Igla 9K38 + missiles." The Igla surface-to-air missile system has  
previously been charged, and upheld, as a "missile system designed to  
destroy aircraft" pursuant to 18 U.S.C. § 2332g. See *United States  
v. Bout*, 731 F.3d 233 (2d Cir. 2013) (affirming 18 U.S.C. § 2332g  
conviction based on conspiracy to acquire and use Igla surface-to-air  
missile systems).

1 Partsakhashvili, which the Court permitted the parties to take and to  
2 use at trial pursuant to Rule 15.

3 **J. The Conspiracy to Transfer Missile Systems**

4 In addition to the aforementioned conspiracy to use missile  
5 systems designed to destroy aircraft, defendant also conspired with  
6 multiple individuals to transfer such systems in violation of 18  
7 U.S.C. § 2332g. The evidence of this conspiracy will include  
8 communications reflecting defendant's efforts between 2013 and 2015  
9 to procure an S-400 Triumph anti-aircraft missile system from the  
10 Russian government on behalf of the royal family of Saudi Arabia. It  
11 will also include communications, offer letters, and EUCs reflecting  
12 defendant's efforts to broker and transfer Igla and Strela<sup>3</sup> surface-  
13 to-air missile systems to a variety of countries, including Libya,  
14 the United Arab Emirates, Iraq, and Saudi Arabia.

15 **III. THE ELEMENTS OF THE CHARGED OFFENSES**

16 **A. Count 1: Attempted Exportation of Defense Articles Without**  
17 **A License**

18 **1. The Statutory Framework**

19 The relevant provisions of the Arms Export Control Act ("AECA")  
20 are codified at Title 22, United States Code, Section 2778(b)(2) and  
21 (c). Specifically, § 2778(b)(2) provides:

---

22  
23  
24 <sup>3</sup> Dr. Robert Doherty will testify at trial that the Strela is a  
25 Soviet-designed surface-to-air missile system that preceded the Igla.  
26 The purpose of the Strela system is to destroy aircraft. There have  
27 been several design updates to the first-generation 9K31 Strela 1M  
28 system, but the missiles used are interchangeable among them. In an  
offer letter, defendant referenced the launchers only as "Strela" and  
the missiles as "Strela Missiles." The Strela has been previously  
charged, and upheld, as a "missile system designed to destroy  
aircraft" pursuant to 18 U.S.C. § 2332g. See United States v.  
Hammadi, 737 F.3d 1043 (6th Cir. 2013) (affirming conviction based on  
conspiracy to transfer Strela surface-to-air missile systems).

1 Except as otherwise specifically provided in regulations  
2 issued under subsection (a)(1) of this section, no defense  
3 articles or defense services designated by the President  
4 under subsection (a)(1) of this section may be exported or  
5 imported without a license for such export or import,  
6 issued in accordance with this chapter and regulations  
7 issued under this chapter, except that no license shall be  
8 required for exports or imports made by or for an agency of  
9 the United States Government (A) for official use by a  
10 department or agency of the United States Government, or  
11 (B) for carrying out any foreign assistance or sales  
12 program authorized by law and subject to the control of the  
13 President by other means.

14 Section 2778(c) provides:

15 Any person who willfully violates any provision of this  
16 section . . . or any rule or regulation issued under this  
17 section . . . , shall upon conviction be fined for each  
18 violation not more than \$1,000,000 or imprisoned not more  
19 than 20 years, or both.

20 The items or categories of items that are defense articles and  
21 defense services subject to export control have been delegated by the  
22 President to the Secretary of State with the concurrence of the  
23 Secretary of Defense. E.g., E.O. 13637, Sec. 1(n)(i) (Mar. 8, 2013).  
24 The list of items and categories of items designated as defense  
25 articles and defense services resides in the United States Munitions  
26 List ("USML"), which is set forth in the International Traffic in  
27 Arms Regulations ("ITAR") at 22 C.F.R. § 121.1.

28 The regulations promulgated under the authority of AECA follow  
its provisions regarding the requirement for a license. 22 C.F.R.  
§ 123.1(a) provides that "[a]ny person who intends to export . . . a  
defense article must obtain the approval of the Directorate of  
Defense Trade Controls prior to the export." 22 C.F.R. § 127.1(a)(1)  
provides that "[w]ithout first obtaining the required license or  
other written approval from the Directorate of Defense Trade  
Controls, it is unlawful . . . [t]o export or attempt to export from  
the United States any defense article or technical data . . . for

1 which a license or written approval is required." 22 C.F.R.  
 2 § 127.1(a)(1) (emphasis added).

3 2. Elements of the Crime of Attempted Exportation of a  
 4 Defense Article without a License

5 Count One of the Trial Indictment charges defendant with  
 6 attempting to cause the export from the United States of a defense  
 7 article without a license. In order for the defendant to be found  
 8 guilty of that charge, the government must prove each of the  
 9 following elements beyond a reasonable doubt:

10 First, defendant intended to willfully cause another person  
 11 to export from the United States of an article designated in the  
 12 United States Munitions List ("USML") - a "defense article" - without  
 13 a license or other written authorization issued by the State  
 14 Department; and

15 Second, defendant did something that was a substantial step  
 16 toward willfully causing another person to export from the United  
 17 States an article designated in the USML without a license or other  
 18 written authorization issued by the State Department.

19 **B. Count 2: Smuggling**

20 1. The Statutory Framework

21 The text of 18 U.S.C. § 554 is as follows:

22 Whoever fraudulently or knowingly exports or sends from the  
 23 United States, or attempts to export or send from the  
 24 United States, any merchandise, article, or object contrary  
 25 to any law or regulation of the United States, or receives,  
 26 conceals, buys, sells, or in any manner facilitates the  
 27 transportation, concealment, or sale of such merchandise,  
 28 article or object, prior to exportation, knowing the same  
 to be intended for exportation contrary to any law or  
 regulation of the United States, shall be fined under this  
 title, imprisoned not more than 10 years, or both.

1           2.   Elements of the Crime of Smuggling

2           The elements of the crime of smuggling are as follows:

3           First, defendant knowingly received, concealed, bought, or sold  
4 merchandise, articles, and objects, or in any manner facilitated the  
5 transportation, concealment, or sale of such merchandise, articles,  
6 and objects, prior to exportation; and

7           Second, at that time, defendant knew the merchandise, articles,  
8 and objects to be intended for exportation contrary to any law or  
9 regulation of the United States.

10          C.   **Counts Three and Four: Money Laundering**

11           1.   The Statutory Framework

12          The text of 18 U.S.C. § 1956(a)(2)(A) provides:

13          Whoever transports, transmits, or transfers, or attempts to  
14 transport, transmit, or transfer a monetary instrument or  
15 funds from a place in the United States to or through a  
16 place outside the United States or to a place in the United  
17 States from or through a place outside the United States –  
18 (A) with the intent to promote the carrying on of specified  
19 unlawful activity. . . shall be sentenced to a fine of not  
20 more than \$500,000 or twice the value of the monetary  
21 instrument or funds involved in the transportation,  
22 transmission, or transfer, whichever is greater, or  
23 imprisonment for not more than twenty years, or both.

19 18 U.S.C. § 1956(a)(2)(A).

20           2.   Elements of the Crime

21          The elements of the crime of money laundering are as follows:

22          First, defendant transported money to a place in the United  
23 States from or through place outside the United States; and

24          Second, defendant acted with the intent to promote the carrying  
25 on of a specified unlawful activity, namely, smuggling or exporting  
26 of defense articles without a license in violation of AECA and the  
27 ITAR.

1           **D.     Count Five: Conspiracy**

2                 1.     The Statutory Scheme

3           The text of 18 U.S.C. § 371 provides, in pertinent part:

4           If two or more persons conspire either to commit any  
5           offense against the United States, or to defraud the United  
6           States, or any agency thereof in any manner or for any  
7           purpose, and one or more of such persons do any act to  
            effect the object of the conspiracy, each shall be fined  
            under this title or imprisoned not more than five years, or  
            both.

8   18 U.S.C. § 371.

9                 2.     Elements of the Crime

10          The elements of the crime of conspiracy are as follows:

11          First, beginning on a date unknown, but no later than September  
12          4, 2013, there was an agreement between two or more persons to commit  
13          at least one crime as charged in the Trial Indictment;

14          Second, the defendant became a member of the conspiracy knowing  
15          of at least one of its objects and intending to help accomplish it;  
16          and,

17          Third, one of the members of the conspiracy performed at least  
18          one overt act on or after September 4, 2013, for the purpose of  
19          carrying out the conspiracy.

20           **E.     Count Six: Brokering Defense Articles and Services Without**  
21                 **a License**

22                 1.     The Statutory Framework

23          At the time of the offense conduct, AECA imposed registration  
24          and licensing requirements on U.S. persons who engage in "brokering  
25          activities with respect to the manufacture, export, import, or  
26          transfer of any defense article or defense service" and who are "in  
27          the business of brokering activities with respect to the manufacture,  
28          export, import, or transfer of any foreign defense article or defense

1 service." 18 U.S.C. § 2778(b)(1)(A)(ii)(I)-(IV). "Brokering  
 2 activities" meant any action on behalf of another to facilitate the  
 3 manufacture, export, permanent import, transfer, re-export, re-  
 4 transfer, or furnishing of a U.S. or foreign defense article or U.S.  
 5 or foreign defense service, regardless of its origin." 22 C.F.R.  
 6 § 129.2. A "broker" meant any person (including a natural person,  
 7 corporation, business association, partnership, society, trust, or  
 8 any other entity, organization, or group) engaged in the business of  
 9 brokering activities and who was: (a) a U.S. person, wherever  
 10 located; (b) a foreign person located in the United States; or (c) a  
 11 foreign person located outside the United States where the foreign  
 12 person is owned or controlled by a U.S. person. 22 C.F.R. § 129.2.

## 13 2. Elements of the Crime

14 The elements of the crime of brokering defense articles and  
 15 defense services without a license are as follows:

16 First, defendant engaged in the business of brokering activities  
 17 with respect to the export or transfer of an article or service;

18 Second, the article or service was designated in the USML;

19 Third, the defendant engaged in such brokering activities  
 20 without first registering with or obtaining a license or other  
 21 written authorization from the Secretary of State; and

22 Fourth, the defendant acted willfully.

## 23 **F. Count Seven: Conspiracy to Use and to Transfer a Missile 24 System Designed to Destroy Aircraft**

### 25 1. The Statutory Framework

26 The text of 18 U.S.C. § 2332g provides, in pertinent part, as  
 27 follows:

1 (1) In general.--Except as provided in paragraph (3), it  
2 shall be unlawful for any person to knowingly produce,  
3 construct, otherwise acquire, transfer directly or  
indirectly, receive, possess, import, export, or use, or  
possess and threaten to use--

4 (A) an explosive or incendiary rocket or missile that  
5 is guided by any system designed to enable the rocket  
or missile to--

6 (i) seek or proceed toward energy radiated or  
7 reflected from an aircraft or toward an image locating  
an aircraft; or

8 (ii) otherwise direct or guide the rocket or  
9 missile to an aircraft;

10 (B) any device designed or intended to launch or guide  
a rocket or missile described in subparagraph (A); or

11 (C) any part or combination of parts designed or  
12 redesigned for use in assembling or fabricating a rocket,  
missile, or device described in subparagraph (A) or (B).

13 . . . . .

14 (b) Jurisdiction.--Conduct prohibited by subsection  
15 (a) is within the jurisdiction of the United States if--

16 . . . . .

17 (2) the offense occurs outside of the United  
18 States and is committed by a national of the United  
States;

19 . . . . .

20 (c) Criminal penalties.--

21 (1) In general.--Any person who violates, or attempts  
22 or conspires to violate, subsection (a) shall be fined not  
23 more than \$2,000,000 and shall be sentenced to a term of  
imprisonment not less than 25 years or to imprisonment for  
life.

## 24 2. Elements of the Crime

25 The elements of the crime of conspiring to use and to transfer  
26 missile systems designed to destroy aircraft are as follows:  
27  
28

1 First, beginning on a date unknown, but no later than September  
2 9, 2013, there was an agreement between two or more persons to use or  
3 to transfer a missile system designed to destroy aircraft;

4 Second, the defendant became a member of the conspiracy knowing  
5 of at least one of its objects and intending to help accomplish it;  
6 and

7 Third, one of the members of the conspiracy performed at least  
8 one overt act on or after September 9, 2013 for the purpose of  
9 carrying out the conspiracy.

10 The elements of transferring or using missile systems designed  
11 to destroy aircraft are as follows:

12 First, a member of the conspiracy was a national of the United  
13 States; and

14 Second, it was a purpose of the conspiracy to knowingly produce,  
15 construct, otherwise acquire, transfer directly or indirectly,  
16 receive, possess, import, export, or use, or possess and threaten to  
17 use any of the following: (1) an explosive or incendiary rocket or  
18 missile that is guided by any system designed to enable the rocket or  
19 missile to seek or proceed toward energy radiated or reflected from  
20 an aircraft toward an image locating an aircraft or otherwise direct  
21 or guide the rocket or missile to an aircraft; (2) any device  
22 designed or intended to launch or guide such a rocket or missile; or  
23 (3) any part or combination of parts designed or redesigned for use  
24 in assembling or fabricating such a rocket, missile, or device.

#### 25 IV. EVIDENTIARY AND LEGAL ISSUES

##### 26 A. Judicial Notice

27 The Government has requested judicial notice of the following  
28 fact:

1 On April 5, 2017, defendant was detained and first brought  
2 before a United States Magistrate Judge in Los Angeles,  
3 California, in the Central District of California, to be  
4 arraigned on Counts One through Three of the First  
5 Superseding Indictment ("FSI"), which charges now appear as  
6 Counts Five through Seven of the Trial Indictment.

7 As detailed in the Government Request for Judicial Notice (Dkt.  
8 319), upon which the Court has not yet ruled, this fact is subject to  
9 judicial notice and is relevant to establishing that venue is proper  
10 in this district.

11 **B. Expert Testimony**

12 **1. The International Trade in Arms and Munitions**

13 To aid the jury in understanding the evidence that will be  
14 presented, which will largely consist of communications among  
15 defendant and co-conspirators regarding the brokering, export,  
16 transfer, and sale of weapons, ammunition, other munitions, and  
17 mercenary services, the government will offer limited expert  
18 testimony by HSI Special Agent Matthew Peterson to educate the jury  
19 as to the international market for arms and the business patterns and  
20 practices commonly employed by those involved in it. This testimony  
21 may include the fact that many countries require end-user  
22 certificates (EUCs) and other official documentation for transactions  
23 involving arms originating therein; the black market for such EUCs  
24 and other documents, and the common practice of forging, creating, or  
25 altering such documentation; the common use of coded language and  
26 coded cover documentation by black-market arms traffickers, and  
27 typical examples of such codes; the diverse methods of communication  
28 typically employed among those in the network of international black-  
market arms traffickers; the fact that black-market arms brokers  
often serve as middlemen, buying or selling depending on the needs

1 and stocks of suppliers and customers; typical pricing structures in  
2 the black market for various arms; the common practice of marketing  
3 defense articles and services in conflict-afflicted areas where  
4 demand is high and profit margins are substantial; the vernacular and  
5 methods of communication commonly used in the trade; processes and  
6 practices required by the U.S. government in the weapons trade; and  
7 other related areas. SA Peterson may also testify as to the  
8 structure of governmental and non-governmental arms-procurement  
9 networks, and as to his knowledge of certain prominent individuals in  
10 those roles.

11 SA Peterson will also testify about various types of weapons and  
12 their nomenclature and characteristics, including but not limited to  
13 pistols, rifles, assault rifles, machine guns, and other firearms;  
14 small arms ammunition; rockets, mortars, missiles, and launchers;  
15 anti-tank weapons; artillery; and anti-aircraft systems. He may also  
16 testify about the nomenclature for and characteristics of various  
17 other types of military equipment, including optical equipment;  
18 assault, cargo and transport aircraft; tanks; armored personnel  
19 carriers; and vehicles. SA Peterson's testimony will be based on his  
20 training, education, and military and work experience, including his  
21 experience working on numerous weapons-proliferation investigations.

22 The government has provided notice of the above-described areas  
23 of anticipated testimony by SA Peterson, and defendant did not raise  
24 any objections to this evidence by the Court-ordered deadline or at  
25 any other time. Because SA Peterson will also testify as a lay  
26 witness about percipient facts relevant to the investigation, the  
27 government will request that the Court read an appropriate dual-role  
28 testimony instruction to the jury immediately prior to his testimony

1 as well as at the end of the case. See Ninth Circuit Model Criminal  
2 Jury Instruction 4.14; see also United States v. Vera, 770 F.3d 1232,  
3 1246 (9th Cir. 2014). The government will provide this requested  
4 instruction in its proposed jury instructions.

5 2. USML Status of Charged Defense Articles and Services

6 The USML, contained in regulations promulgated by DOS pursuant  
7 to the AECA, 22 U.S.C. § 2778 "consists of categories of defense  
8 articles that cannot be imported or exported without a license."  
9 United States v. Fu Chin Chung, 931 F.2d 43, 45 (11th Cir. 1991) (per  
10 curiam); see 22 C.F.R. § 121.1. "To sustain a conviction under 22  
11 U.S.C. § 2778, the government must prove beyond a reasonable doubt  
12 that the defendant willfully exported or attempted to export defense  
13 articles that are on the United States Munitions List without a  
14 license." United States v. Castro-Trevino, 464 F.3d 536, 543 n. 14  
15 (5th Cir. 2006) (quotation marks and citation omitted). The  
16 government must therefore prove that the defense article was on the  
17 USML at the time of the alleged conduct.

18 Courts of appeals, including the Ninth Circuit, have sustained  
19 convictions for AECA violations where the government submitted at  
20 trial, in order to meet that burden, a certification from the U.S.  
21 State Department that the article at issue was, in fact, on the USML.  
22 United States v. Chi Mak, 683 F.3d 1126, 1140 (2012) (sustaining  
23 conviction based on U.S. State Department certification that  
24 documents were technical data on the USML); United States v. Piquet,  
25 372 Fed. Appx. 4, 5 (2010) (unpublished) (same).

26 The recent trend, however, is for the government to present  
27 expert and/or lay testimony concerning both the applicable USML  
28 categories and the specifications of the articles at issue that

1 establish that they are on that list. See, e.g., United States v.  
2 Burden, 217 F. Supp. 3d 348, 351-52 (D.D.C. 2016) (denying motion for  
3 judgment of acquittal; DDTC employee testified that certain items  
4 constituted defense articles).

5 This trend addresses concerns raised by some courts that  
6 removing from the jury the question of whether the item at issue fell  
7 under the Munitions List based on the State Department's after-the-  
8 fact determinations may violate defendant's right to a jury finding  
9 on each essential element of the crime. See, e.g., United States v.  
10 Zhen Zhou Wu, 711 F.3d 1 (2013) (vacating convictions on that  
11 ground); United States v. Pulungan, 569 F.3d 326, 328 (7th Cir. 2009)  
12 (reversing conviction; citing concern that DDTC's "claim of authority  
13 to classify any item as a 'defense article,' without revealing the  
14 basis of the decision and without allowing any inquiry by the jury,  
15 would create serious constitutional problems.").

16 3. Missile Systems Designed to Destroy Aircraft

17 To make a conviction decision on Count Three of the FSI, the  
18 jury must decide whether various weapons systems that the government  
19 alleges defendant conspired to transfer and to use met the following  
20 definition:

21 (A) an explosive or incendiary rocket or missile that is guided  
22 by any system designed to enable the rocket or missile to--

23 (i) seek or proceed toward energy radiated or reflected from an  
24 aircraft or toward an image locating an aircraft; or

25 (ii) otherwise direct or guide the rocket or missile to an  
26 aircraft;

27 (B) any device designed or intended to launch or guide a rocket  
28 or missile described in subparagraph (A); or

1 (C) any part or combination of parts designed or redesigned for  
2 use in assembling or fabricating a rocket, missile, or device  
3 described in subparagraph (A) or (B).

4 To aid the jury in making this determination as to each  
5 relevant weapons system, the government will call Dr. Robert Doherty.  
6 Dr. Doherty has decades of experience in the scientific and  
7 intelligence analysis of anti-aircraft missile systems, with a  
8 specific focus on Soviet and Russian surface-to-air missile systems.  
9 Dr. Doherty will testify as to his familiarity with various anti-  
10 aircraft missile systems, including the following: Igla, Strela, S-  
11 400 Triumph, S-300, S-200, S-75, Grom, Osa, Pechora, Quadrant/Kvadrat,  
12 Tunguska, and Buk. This testimony may include descriptions of the  
13 design, engineering, capabilities, limitations, modifications, and  
14 methods of employment of each system; the NATO and other designators  
15 and alternative nomenclatures therefor; variants of and precursors to  
16 each system; the availability, proliferation, and typical pricing of  
17 each system; the processes by which systems are negotiated and  
18 distributed; the methods by which individual systems are operated,  
19 maintained, serviced, and checked for functionality; and the  
20 deployment of these systems in the field. Dr. Doherty's testimony  
21 may also include a detailed explanation of the precise mechanism by  
22 which each system is employed, as well as a description of the  
23 training required to effectively use, maintain, and repair each  
24 system. Dr. Doherty may also testify about the production and  
25 distribution of various anti-aircraft weapons systems by and to  
26 various countries and regions, and specifically about efforts by  
27 countries, including Saudi Arabia, to obtain the S-400 missile  
28 system. He may further testify as to the country of origin of each

1 system, as well as specific countries that are known for production,  
2 modification, and/or supply of surface-to-air missiles.

3 Dr. Doherty will testify that certain anti-aircraft missile  
4 systems, including Igla, Strela, S-400 Triumph, Grom, Osa, Pechora,  
5 and quadrat systems, among others, use explosive or incendiary  
6 rockets or missiles guided by systems designed to enable the rocket  
7 or missile to seek or proceed toward energy radiated or reflected  
8 from an aircraft or toward an image locating an aircraft, or to  
9 otherwise direct or guide the rocket or missile to an aircraft. He  
10 will further testify that these systems employ devices designed or  
11 intended to launch or guide a rocket or missile toward an aircraft.

12 Drawing from his knowledge of the geographic proliferation of  
13 anti-aircraft missile systems, Dr. Doherty may testify about the  
14 acquisition of various anti-aircraft missile systems – including Igla  
15 and Strela systems – by the Gaddafi regime in Libya and the presence  
16 and deployment of some such systems in post-Qaddafi Libya. His  
17 testimony may also describe the common employment of Toyota Hilux  
18 trucks as a vehicle of choice for mounting certain heavy weapons  
19 systems, including anti-aircraft missile systems.

20 Dr. Doherty may also testify as to his knowledge of air defense  
21 production facilities and training regimes in the militaries of  
22 various countries, including the Soviet Union, the Russian  
23 Federation, and other former Soviet republics. Drawing from that  
24 knowledge, he may testify as to his familiarity with Soviet and  
25 Russian air defense production and training facilities, as well as  
26 the state-sponsored export program for military articles.

1           4.    Other Potential Experts

2           The government has noticed other experts, including linguists,  
3 in the event stipulations as to undisputed facts are not reached.

4           C.    **Hearsay**

5           Federal Rule of Evidence 801(c) defines "hearsay" as "a  
6 statement, other than one made by the declarant while testifying at  
7 the trial or hearing, offered in evidence to prove the truth of the  
8 matter asserted." Fed. R. Evid. 801(c); United States v. Cowley, 720  
9 F.2d 1037, 1044 (9th Cir. 1983). A "statement" is (1) an oral or  
10 written assertion or (2) nonverbal conduct of a person if it is  
11 intended to be an assertion. See Fed. R. Evid. 801(a). Hearsay is  
12 admissible as substantive evidence only as provided by the Federal  
13 Rules of Evidence. See Fed. R. Evid. 802, 803, 804, 807; United  
14 States v. Tafollo-Cardenas, 897 F.2d 976, 979 (9th Cir. 1990).

15           1.    Certified Business Records of Bank Transactions and  
16                 Defendant's Custodial Location

17           The government intends to introduce certified records of  
18 business activities made and kept in the regularly course of the  
19 business of the Clearing House Interbank Payments System ("CHIPS" and  
20 the "CHIPS Business Records"), which is a United States private  
21 clearinghouse for large-value transactions.

22           On October 22, 2018, the Court granted the government's motion  
23 in limine requesting a a pre-trial ruling that (1) the CHIPS Business  
24 Records are self-authenticating under Federal Rule of Evidence 902 as  
25 certified domestic records of a regularly conducted activity, and  
26 that the Government need not call the CHIPS custodian of records to  
27 testify at trial, and (2) those records are otherwise admissible  
28

1 under well-established exceptions to the hearsay rule, including  
2 Federal Rule of 803(6) (Records of a Regularly Conducted Activity).

3 2. Certified Public Records of the Bureau of Prisons

4 The government also intends to introduce United States Bureau of  
5 Prisons ("BOP") Inmate History Records (the "BOP Records").

6 Documents that are self-authenticating public records under Rule  
7 902(4) are admissible under Rule 803(8). Rule 902(4) provides for  
8 the self-authentication of:

9 A copy of an official record . . . if the copy is certified  
10 as correct by: (A) the custodian or another person  
11 authorized to make the certification; or (B) a certificate  
that complies with Rule 902(1), (2), or (3), a federal  
statute, or a rule prescribed by the Supreme Court.

12 Fed. R. Evid. 902(4).

13 Here, the Certificate of Record attached to the BOP Records  
14 identifies its signer as the official custodian of the records of the  
15 Metropolitan Detention Center - Los Angeles ("MDC-LA") and the  
16 certified record as "SENTRY Printout of 'ARS' INMATE HISTORY[] (1  
17 page)." This certificate suffices to authenticate the BOP Records  
18 under Rule 902(4)(A). The BOP Records and the Certificate of Record  
19 are attached hereto as Exhibit C.

20 Although hearsay is generally inadmissible, Federal Rule of  
21 Evidence 803(8)(A)(i) establishes an exception for, in pertinent  
22 part, "[a] record or statement of a public office if . . . it sets  
23 out . . . the office's activities." Here, the essential function or  
24 activity of the MDC-LA is to detain federal prisoners. That activity  
25 is recorded in the BOP Records, which show defendant's location  
26 throughout his time in federal custody. See United States v.  
27 Weiland, 420 F.3d 1062, 1074 (9th Cir. 2005) (holding that records  
28 contained in "penitentiary packet" were self-authenticating public

1 records under Rules 902(4) and 902(2) and in admissible pursuant to  
2 the hearsay exception in Rule 803(8)).

3           3.   Defendant's Statements

4           The government intends to admit statements made by defendant,  
5 including in recorded conversations and e-mail and text message  
6 communications. Statements by a party opponent when offered against  
7 that party are excluded from the hearsay definition. See Fed. R.  
8 Evid. 801(d)(2)(A). Thus, defendant's statements may be admitted  
9 against him. Statements not offered for their truth, but to provide  
10 context for what the defendant has said, such as the statements of  
11 the SOI and the UC, are not hearsay. See United States v. Whitman,  
12 771 F.2d 1348, 1352 (9th Cir. 1985) (upholding admission of recorded  
13 conversations between government informant and the defendant's co-  
14 conspirator, as the "statements were not admitted for their truth but  
15 to enable the jury to understand the [co-conspirator's] taped  
16 statements"). The admission of non-hearsay statements generally does  
17 not violate the Confrontation Clause. See Tennessee v. Street, 471  
18 U.S. 409, 414 (1985) (noting that nonhearsay "raises no Confrontation  
19 Clause concerns").

20           When the government offers some of a defendant's prior  
21 statements, the door is not thereby opened to the defendant to put in  
22 all of her out-of-court statements because, because, when offered by  
23 the defendant, the statements are hearsay. See Fed. R. Evid.  
24 801(d)(2); United States v. Burreson, 643 F.2d 1344, 1349 (9th Cir.  
25 1981). Accordingly, exculpatory statements made by a defendant are  
26 hearsay and are not admissible at trial, when offered by the  
27 defendant. See Fed. R. Evid. 801(d), 802; United States v. Ortega,  
28 203 F.3d 675, 682 (9th Cir. 2000).

1       The only recognized limitation of this principle is the  
2 "doctrine of completeness," which has been applied by some courts to  
3 admit additional portions of a defendant's prior statements where  
4 necessary to explain an admitted statement, place it in context, or  
5 avoid misleading the trier of fact. See Fed. R. Evid. 106; Burreson,  
6 643 F.2d at 1349. However, the completeness doctrine does not  
7 require introduction of portions of a statement that are neither  
8 explanatory of, nor relevant to, the admitted passages. See United  
9 States v. Mitchell, 502 F.3d 931, 965 (9th Cir. 2007); United States  
10 v. Collicott, 92 F.3d 973, 983 (9th Cir. 1996) (holding that Federal  
11 Rule of Evidence 106 does not compel admission of otherwise  
12 inadmissible hearsay evidence); see also United States v. Lopez-  
13 Figueroa, 316 F. App'x 548, 550 (9th Cir. 2008) (defendant could not  
14 introduce own statements redacted from confession by government). As  
15 the Ninth Circuit has recognized, "it is often perfectly proper to  
16 admit segments . . . without including everything, and adverse  
17 parties are not entitled to offer additional segments just because  
18 they are there and the proponent has not offered them." Collicott,  
19 92 F.3d at 983.

#### 20           4. Co-Conspirator Statements

21       The government also intends to admit statements made by  
22 defendant's unindicted co-conspirators, including in e-mail and text  
23 message communications. The Federal Rules of Evidence define as non-  
24 hearsay any "statement [that] is offered against an opposing party  
25 and . . . was made by the party's coconspirator during and in  
26  
27  
28

1 furtherance of the conspiracy."<sup>4</sup> Fed. R. Evid. 801(d)(2)(E). The  
2 admission of co-conspirator statements requires only that: "(1)  
3 there was a conspiracy, (2) the defendant and the declarant were  
4 participants in the conspiracy, and (3) the statement was made by the  
5 declarant during and in furtherance of the conspiracy." United  
6 States v. Bridgeforth, 441 F.3d 864, 869 (9th Cir. 2006).

7 Regarding the first factor - the existence of the conspiracy -  
8 "[t]he question is merely whether there was proof of a sufficient  
9 concert of action to show the individuals have been engaged in a  
10 joint venture." United States v. Lloyd, 807 F.3d 1128, 1161 (9th  
11 Cir. 2015).

12 Regarding the second factor - that the defendant and declarant  
13 were participants in the conspiracy - only slight evidence is  
14 necessary to connect a coconspirator to the conspiracy. The required  
15 quantum of proof is minimal. See United States v. Perez, 658 F.2d  
16 654, 658 (9th Cir. 1981). "[P]articipation as an aider and abetter  
17 is sufficient" to establish the requisite connection to the  
18 conspiracy, and a declarant need not be charged alongside the  
19 defendant or even convicted of conspiracy to admit the declarant's  
20 statements under the co-conspirator exception. See United States v.  
21 Protac, Inc., 869 F.2d 1288, 1294 (9th Cir. 1989).

22 Regarding the third factor - that the statement was made in  
23 furtherance of the conspiracy - the scope of statements considered to  
24

---

25  
26 <sup>4</sup> It bears mention that "[t]he requirements for admission of a  
27 co-conspirator's statement under Federal Rule of Evidence  
28 801(d)(2)(E) are identical to the requirements of the Confrontation  
Clause. Therefore, if a statement is admissible under Rule  
801(d)(2)(E), the defendant's right of confrontation is not  
violated." United States v. Bridgeforth, 441 F.3d 864, 868-69 (9th  
Cir. 2006) (citation omitted).

be in furtherance of the conspiracy is quite broad. It includes statements made to induce or enlist further participation in the group's activities, prompt further action on the part of conspirators, reassure members of a conspiracy's continued existence, allay a co-conspirator's fears, and keep co-conspirators abreast of ongoing activities. See United States v. Arias-Villanueva, 998 F.2d 1491, 1502 (9th Cir. 1993), overruled on other grounds by United States v. Jimenez-Ortega, 472 F.3d 1102 (9th Cir. 2007); United States v. Yarborough, 852 F.2d 1522, 1535-36 (9th Cir. 1988); United States v. Layton, 720 F.2d 548, 557 (9th Cir. 1983), overruled on other grounds by United States v. W.R. Grace, 526 F.3d 499, 506 (9th Cir. 2008) (en banc).<sup>5</sup> Bragging, boasts, and other comments designed to obtain confidence fall within the exception, United States v. Lechuga, 888 F.2d 1472, 1480 (5th Cir. 1989); United States v. Santiago, 837 F.2d 1545, 1549 (11th Cir. 1988). So, too, do statements that "identify the coconspirators" or "discuss a coconspirator's role in the conspiracy." Meeks, 756 F.3d at 1119. In determining whether a statement was made in furtherance of a

---

<sup>5</sup> Many circuit courts have recognized that the "in furtherance" requirement is to be construed broadly. See, e.g., United States v. Meeks, 756 F.3d 1115, 1119 (8th Cir. 2014) ("[W]e interpret the phrase in furtherance of the conspiracy broadly."); United States v. Duka, 671 F.3d 329, 348 (3d Cir. 2011) ("The threshold for establishing that a statement was made in furtherance of a conspiracy is not high: the in furtherance of requirement is usually given a broad interpretation." (internal alteration and quotation marks omitted)); United States v. Hynes, 467 F.3d 951, 970 (6th Cir. 2006) ("[T]his court has broadly construed the requirement that statements between coconspirators be 'in furtherance' of the conspiracy . . . ."); United States v. Smith, 441 F.3d 254, 262 (4th Cir. 2006) ("Most courts, including the Fourth Circuit, construe the in furtherance of requirement so broadly that even causal relationships to the conspiracy suffice to satisfy the exception." (internal quotation marks omitted)); United States v. Limones, 8 F.3d 1004, 1008 (5th Cir. 1993) ("[T]he term 'in furtherance' of a conspiracy is broadly construed . . . .").

1 conspiracy, what matters is the declarant's intent in making the  
2 statement, not the statement's effect. See United States v.  
3 Nazemian, 948 F.2d 522, 529 (9th Cir. 1991); United States v. Zavala-  
4 Serra, 853 F.2d 1512, 1516 (9th Cir. 1988).

5 The government need only establish those foundational facts by a  
6 preponderance of the evidence. See Bourjaily v. United States, 483  
7 U.S. 171, 176 (1987). Because co-conspirator statements fall within  
8 a "firmly rooted hearsay exception" that is "steeped in our  
9 jurisprudence," once foundational facts are established, "a court  
10 need not independently inquire into the reliability of such  
11 statements." Id. at 182-83.

12 "It is well established" that Rule 801(d)(2)(E) "is to be  
13 construed broadly in favor of admissibility." United States v.  
14 McMurray, 34 F.3d 1405, 1412 (8th Cir. 1994). Although a co-  
15 conspirator's statement alone is not enough to establish that it  
16 qualifies for admission under Rule 801(d)(2)(E), a court may consider  
17 the statement itself in evaluating its admissibility, United States  
18 v. Gordon, 844 F.2d 1397, 1402 (9th Cir. 1988), and the burden to  
19 introduce extrinsic evidence supporting admissibility is not a heavy  
20 one, United States v. Castaneda, 16 F.3d 1504, 1507 (9th Cir. 1994).

#### 21 D. Physical Evidence

22 The Government will seek to admit physical evidence of  
23 Defendant's crimes seized from Defendant on December 15, 2015,  
24 namely, the Digital Devices. The test of admissibility of physical  
25 objects connected with the commission of a crime requires a showing  
26 that the object is in substantially the same condition as when the  
27 crime was committed (or the object seized). See United States v.  
28 Kaiser, 660 F.2d 724, 733 (9th Cir. 1981) (affirming district court's

admission of physical exhibit), overruled on other grounds by United States v. De Bright, 730 F.2d 1255, 1259 (9th Cir. 1984) (en banc). Factors to be considered are the nature of the article, the circumstances surrounding its preservation and custody and the likelihood of intermediaries tampering with it. See id. There is, however, a presumption of regularity in the handling of exhibits by public officials. See id.

If the district courts finds that there is a reasonable possibility that the piece of evidence has not changed in a material way, the Court has discretion to admit the evidence. See United States v. Harrington, 923 F.2d 1371, 1374 (9th Cir. 1991) (affirming trial's admission of items into evidence). Factors the court may consider in making this determination include the nature of the item, the circumstances surrounding its preservation, and the likelihood of intermeddlers having tampered with it. See Gallego v. United States, 276 F.2d 914, 917 (9th Cir. 1960) (same).

"There is no rule requiring the prosecution to produce as witnesses all persons who were in a position to come into contact with the article sought to be introduced in evidence." Gallego, 276 F.2d at 917. Gaps or defects in the chain of custody go to the weight of the evidence rather than its admissibility. See United States v. Matta-Ballesteros, 71 F.3d 754, 769-70 (9th Cir. 1995) (affirming district court's admission of audiotape recordings into evidence).

#### **E. Authentication and Identification**

The requirement of authentication or identification as a condition precedent to admissibility is satisfied by "evidence sufficient to support a finding that the item is what the proponent

claims it is." Fed. R. Evid. 901(a). Federal Rule of Evidence 901(a) requires that the government "make only a prima facie showing of authenticity 'so that a reasonable juror could find in favor of authenticity or identification.'" United States v. Chu Kong Yin, 935 F.2d 990, 996 (9th Cir. 1991) (quoting United States v. Blackwood, 878 F.2d 1200, 1202 (9th Cir. 1989)); see also United States v. Black, 767 F.2d 1334, 1342 (9th Cir. 1985). Once the government meets this burden, "[t]he credibility or probative force of the evidence offered is, ultimately, an issue for the jury." Black, 767 F.2d at 1342.

To be admitted into evidence, a physical exhibit must be in substantially the same condition as when the crime was committed. The court may admit the evidence if there is a "reasonable probability the article has not been changed in important respects." United States v. Harrington, 923 F.2d 1371, 1374 (9th Cir. 1991). This determination is to be made by the trial judge and will not be overturned except for clear abuse of discretion. Factors the court may consider in making this determination include the nature of the item, the circumstances surrounding its preservation, and the likelihood of intermeddlers having tampered with it. Gallego v. United States, 276 F.2d 914, 917 (9th Cir. 1960).

#### **F. Chain of Custody**

The test of admissibility of physical objects connected with the commission of a crime requires a showing that the object is in substantially the same condition as when the crime was committed (or the object seized). Factors to be considered are the nature of the article, the circumstances surrounding its preservation and custody and the likelihood of intermediaries tampering with it. There is,

1 however, a presumption of regularity in the handling of exhibits by  
2 public officials. United States v. Kaiser, 660 F.2d 724, 733 (9th  
3 Cir. 1981), overruled on other grounds by United States v. De Bright,  
4 730 F.2d 1255, 1259 (9th Cir. 1984) (en banc). The authenticity of  
5 proposed exhibits may be proven by circumstantial evidence. United  
6 States v. Natale, 526 F.2d 1160, 1173 (2d Cir. 1975); United States  
7 v. King, 472 F.2d 1, 9-11 (9th Cir. 1973). Moreover, the prosecution  
8 need only prove a rational basis from which the jury may conclude  
9 that the exhibits did, in fact, belong to the defendant. Fed. R.  
10 Evid. 401(a).

11 If the trial judge finds that there is a reasonable possibility  
12 that the piece of evidence has not changed in a material way, the  
13 Court has discretion to admit the evidence. Kaiser, 660 F.2d at 733.  
14 The government is not required, in establishing chain of custody, to  
15 call all persons who may have come into contact with the piece of  
16 evidence. Gallego, 276 F.2d at 917. Gaps or defects in chain of  
17 custody go to the weight of the evidence rather than its  
18 admissibility. United States v. Matta-Ballesteros, 71 F.3d 754, 769-  
19 70 (9th Cir. 1995); United States v. Robinson, 967 F.2d 287, 292 (9th  
20 Cir. 1992).

#### 21 G. Cross Examination

22 The scope of a cross-examination is within the discretion of the  
23 trial court. See Fed. R. Evid. 611(b).

24 The district court has broad authority to control the extent of  
25 cross examination, and "in its discretion may limit cross-examination  
26 in order to preclude repetitive questions, upon determining that a  
27 particular subject has been exhausted, or to avoid extensive and  
28 time-wasting exploration of collateral matters." United States v.

1 Weiner, 578 F.2d 757, 766 (9th Cir. 1978); see also Price v. Kramer,  
2 200 F.3d 1237, 1252 (9th Cir. 2000) (upholding court's refusal to  
3 allow additional questioning where "defense counsel had already asked  
4 that question and received the same answer a number of times"). This  
5 includes the discretion to preclude repetitive questions by  
6 successive defense counsel in multi-defendant cases. Amsler v.  
7 United States, 381 F.2d 37, 51 (9th Cir. 1967) (finding pre-trial  
8 order precluding repetitive questioning by successive defense counsel  
9 to be a "reasonable restriction . . . within the sound discretion of  
10 the court").

#### 11 H. Impeaching Witnesses

12 Federal Rule of Evidence 608(a) permits attacks on a witness's  
13 credibility through testimony about the witness's general character  
14 or reputation for truthfulness or untruthfulness. Fed. R. Evid.  
15 608(a). However, extrinsic evidence (including testimony from third-  
16 party witnesses) about the witness's specific instances of conduct  
17 for the purpose of attacking the witness's character for truthfulness  
18 or untruthfulness is prohibited, except in the case of prior  
19 convictions. Fed. R. Evid. 608(b). Counsel may only probe specific  
20 instances of conduct probative of a witness's character for  
21 truthfulness or untruthfulness during cross-examination (without  
22 proffering extrinsic evidence) with respect to (1) the testifying  
23 witness or (2) other witnesses about whose character the witness has  
24 testified about. Id. Thus, counsel may not offer testimony or any  
25 other extrinsic evidence about specific instances of conduct for the  
26 purpose of attacking a testifying witness's credibility.

1           **I.     Photographs**

2           The government intends to offer a limited number of  
3 representative photographs to aid the jury's understanding of the  
4 defense articles alleged in the charges. Photographs are generally  
5 admissible as evidence. See United States v. Stearns, 550 F.2d 1167,  
6 1171 (9th Cir. 1977) (photographs of crime scene admissible).  
7 Photographs should be admitted so long as they fairly and accurately  
8 represent the event or object in question. United States v. Oaxaca,  
9 569 F.2d 518, 525 (9th Cir. 1978). The Ninth Circuit has held that  
10 "[p]hotographs are admissible as substantive as well as illustrative  
11 evidence." United States v. May, 622 F.2d 1000, 1007 (9th Cir.  
12 1980). Exemplary photos of the defense articles at issue in this  
13 case - that is, photos of the types of defense articles at issue, but  
14 not the specific defense articles that defendant actually procured or  
15 attempted to procure or brokered or attempted the broker the sale of  
16 - that the government intends to offer in this regard are attached  
17 hereto as Exhibit A.

18           **J.     Demonstratives**

19           The government may use charts, graphics, and other visual aids  
20 to help the jury understand the evidence relating to defendant's  
21 complex financial and business transactions. The government is also  
22 considering other potential demonstratives that might facilitate the  
23 presentation of its evidence.

24           Demonstrative aids may be used in the trial judge's discretion  
25 with a limiting instruction that they are not evidence, but are used  
26 for the purpose of aiding the jury in its examination of the  
27 evidence. United States v. Wright, 412 F. App'x 993, 993 (9th Cir.  
28 2011) (holding no error in use of demonstrative aid by government).

1           K.     Cross-Examination of Defendant

2           A defendant who testifies at trial may be cross-examined as to  
3 all matters reasonably related to the issues she puts in dispute  
4 during direct examination. "A defendant has no right to avoid cross-  
5 examination on matters which call into question his claim of  
6 innocence." United States v. Miranda-Uriarte, 649 F.2d 1345, 1353-54  
7 (9th Cir. 1981).

8           Defendant's credibility will be crucial if he chooses to testify  
9 in order to refute the government's showing of knowledge and intent.  
10 Indeed, because defendant is the only witness with "direct" evidence  
11 of his own knowledge and intent, if he takes the stand to deny any  
12 knowledge of the laws prohibiting his charged conduct or his mental  
13 state in violating those laws, his credibility becomes a key issue.  
14 Accordingly, cross-examination of defendant about other fraudulent  
15 conduct in which he has engaged or false statements that he has made  
16 is necessary for the jury to weigh whether defendant's denial of  
17 knowledge and intent is credible given his other actions. As the  
18 Ninth Circuit has held, Federal Rule of Evidence 608(b) expressly  
19 permits questioning into prior behavior to challenge credibility  
20 because "[e]vidence of prior frauds is considered probative of the  
21 witness's character for truthfulness or untruthfulness." United  
22 States v. Gay, 967 F.2d 322, 328 (9th Cir. 1992).

23           The Ninth Circuit has repeatedly held that both participation in  
24 fraudulent transactions and the use of false statements are  
25 considered probative of truthfulness and thus admissible on cross-  
26 examination pursuant to Rule 608(b). See, e.g., United States v.  
27 Gay, 967 F2d 322 (9th Cir. 1992) ("Evidence of prior frauds is  
28 considered probative of the witness's character for truthfulness or

1 untruthfulness"); United States v. Jackson, 882 F.2d 1444, 1446 (9th  
2 Cir. 1989); United States v. Munoz, 233 F3d 1117, 1135 (9th Cir.  
3 2000) ("Evidence of prior frauds perpetrated by the witness is  
4 generally considered probative of the witness's truthfulness")  
5 (superseded by statute on other grounds, 18 U.S.C. § 1341). The fact  
6 that defendant's pursuit of this fraudulent transaction and use of  
7 false statements continued until approximately one month before his  
8 arrest further increases the probative value of this evidence. See  
9 Jackson, 882 F.2d at 1448 (noting that "remoteness remains a relevant  
10 factor for the trial court to consider in assessing the probative  
11 value of the evidence," and finding that conduct 14 years prior was  
12 not too remote to probative).

13 Rule 608(b) has generally been interpreted to prohibit the  
14 admission of extrinsic evidence to prove prior misconduct not  
15 resulting in a conviction. Jackson, 882 at 1448. However, should  
16 defendant falsely testify on cross-examination that he did not engage  
17 in these fraudulent schemes or make the statements indicated by the  
18 evidence, the government would be permitted to impeach him with that  
19 evidence of his prior inconsistent statements pursuant to Rule 613.  
20 Id.

21 The prejudicial effect of such evidence, if any, can be  
22 addressed by a limiting instruction. The admission of evidence  
23 harmful to the defendant's case does not necessarily constitute  
24 unfair prejudice. United States v. Fagan, 996 F.2d 1009, 1015 (9th  
25 Cir. 1993). Unfair prejudice results from evidence that "provokes an  
26 emotional response in the jury or otherwise tends to affect adversely  
27 the jury's attitude toward the defendant wholly apart from its  
28

1 judgment as to his guilt or innocence of the crime charged." Id.  
2 (internal quotation marks omitted).

3 **L. Proffer Statements**

4 On four occasions in 2016, defendant met with HSI agents and the  
5 United States Attorney's Office for proffer sessions. Should  
6 defendant testify contrary to his statements during the proffer  
7 session, the government intends to cross-examine him based on the  
8 information he provided and statements he made during the proffer  
9 session. In the proffer agreements that defendant and his counsel  
10 signed prior to commencing each proffer session, he agreed that the  
11 government may use defendant's statements at the proffer session for  
12 the purposes of cross-examination should he testify, or to refute or  
13 counter at any stage of the proceedings (including during the  
14 government's case-in-chief at trial) any evidence, argument,  
15 statement or representation offered by or on behalf of defendant.

16 **M. Character Evidence**

17 The Supreme Court has recognized that character evidence --  
18 particularly cumulative character evidence -- has weak probative  
19 value and great potential to confuse the issues and prejudice the  
20 jury. Michelson v. United States, 335 U.S. 469, 480, 486 (1948).  
21 Trial courts thus have wide discretion to limit the presentation of  
22 character evidence. Id. at 480.

23 In addition, the form of the proffered evidence must be proper.  
24 Federal Rule of Evidence 405(a) sets forth the sole methods for which  
25 character evidence may be introduced. It specifically states that,  
26 where evidence of a character trait is admissible, proof may be made  
27 in two ways: (1) by testimony as to reputation and (2) by testimony  
28 as to opinion. See Fed. R. Evid. 405(a). Thus, a defendant may not

1 introduce specific instances of his good conduct through the  
2 testimony of others. See Michelson, 335 U.S. at 477. On cross-  
3 examination of a defendant's character witness, however, the  
4 government may inquire into specific instances of a defendant's past  
5 conduct relevant to the character trait at issue. See Fed. R. Evid.  
6 405(a). In particular, a defendant's character witnesses may be  
7 cross-examined about their knowledge of the defendant's past crimes,  
8 wrongful acts, and arrests. See Michelson, 335 U.S. at 482. The  
9 only prerequisite is that there must be a good-faith basis that the  
10 incidents inquired about are relevant to the character trait at  
11 issue. See United States v. McCollom, 664 F.2d 56, 58 (5th Cir.  
12 1981).

#### 13 N. Impeachment by Prior Convictions

14 Defendant has advised that he intends to inquire whether the  
15 government's source of information has sustained prior criminal  
16 convictions in Jordan, pursuant to Federal Rule of Evidence 609. In  
17 response to the government's motion in limine to preclude admission  
18 of the underlying documents and inquiry into the SOI's knowledge of  
19 any such convictions, Defendant has agreed not to attempt to offer  
20 the underlying documents purportedly evidencing criminal convictions,  
21 as they clearly do not meet the requirements of Rule 609. The Court  
22 has reserved ruling as to whether defendant may so inquire. The  
23 scope of inquiry permitted when lodging such attacks is limited.  
24 "Absent exceptional circumstances, evidence of a prior conviction  
25 admitted for impeachment purposes may not include collateral details  
26 and circumstances attendant upon the conviction. Generally, only the  
27 prior conviction, its general nature, and punishment of felony range  
28 are fair game . . . ." United States v. Osazuwa, 564 F.3d 1169, 1175

1 (9th Cir. 2009) (alterations adopted) (citations omitted) (internal  
2 quotation marks omitted). Exceptional circumstances may include, for  
3 example, when a witness attempts to "explain away" prior convictions  
4 by offering their "own version of the underlying facts" that tend to  
5 create a false impression about the conviction. See United States v.  
6 Perry, 857 F.2d 1346, 1352 (9th Cir. 1988). Otherwise, the scope of  
7 examination regarding prior convictions should be limited to the "to  
8 establishing the bare facts of the conviction: usually the name of  
9 the offense, the date of the conviction, and the sentence."  
10 Weinstein's Federal Evidence § 609.20[2] at 609-57-60.

11 Accordingly, in the event the Court rules that any inquiry into  
12 these alleged convictions is appropriate, the Court should permit  
13 cross-examination into only the date of the conviction, the crime,  
14 and the sentence imposed.

#### 15 O. Video and Audio Recordings

16 The government will introduce numerous clips from video and  
17 audio recordings of telephone conversations and in-person meetings  
18 involving the Defendant. A recording is admissible upon a showing  
19 that it is "accurate, authentic, and generally trustworthy." United  
20 States v. King, 587 F.2d 956, 961 (9th Cir. 1978). For example,  
21 testimony that a recording depicts evidence that the witness observed  
22 is sufficient to authenticate the recording. Fed. R. Evid. 901(b);  
23 United States v. Smith, 591 F.3d 974, 979-80 (8th Cir. 2010).

24 There is no rigid set of requirements to lay the foundation for  
25 the government's evidence. As long as the government makes a prima  
26 facie showing of authenticity, the "probative force of the evidence  
27 offered is, ultimately, an issue for the jury." United States v.  
28 Blackwood, 878 F.2d 1200, 1202 (9th Cir. 1989). The government will

1 rely on the testimony of Inspector Rosas, who can authenticate the  
2 recording of the interview she conducted of defendant.

3 All duly admitted recorded conversations must be played in open  
4 court. Allowing jurors to take into the jury deliberation room  
5 recorded conversations that were not played in open court is  
6 structural error requiring automatic reversal if a defendant objects  
7 to allowing the jurors to have the un-played calls in the jury room.  
8 United States v. Noushfar, 78 F.3d 1442, 1445-46 (9th Cir. 1996).

9 A lay witness, including a participant in a recorded  
10 conversation, may give opinion testimony on the meaning of otherwise  
11 vague or ambiguous statements made in the recordings. See United  
12 States v. Freeman, 498 F.3d 893, 902 (9th Cir. 2007) ("A lay witness  
13 may provide opinion testimony regarding the meaning of vague or  
14 ambiguous statements [in recorded conversations]"); United States v.  
15 De Peri, 778 F.2d 963, 977-78 (9th Cir. 1985).

16 **P. Charts and Summary Witnesses**

17 To streamline the presentation of evidence for the jury, the  
18 government intends to use a summary chart as part of its case in  
19 chief. This chart summarizes the source of each exhibit that was  
20 extracted from defendant's digital devices or his e-mail account. In  
21 a case involving hundreds of such exhibits that originated from  
22 multiple sources, use of this chart will aid the jury in  
23 understanding where specific pieces of evidence were found and will  
24 save considerable time by obviating the need for a government witness  
25 to identify the source of each exhibit one by one. A prototype of  
26 the chart that the government intends to offer in this regard is  
27 attached hereto as Exhibit B.

1 Charts and summaries of evidence are governed by Federal Rule of  
2 Evidence 1006, which permits the introduction of charts, summaries,  
3 or calculations of voluminous writings, recordings, or photographs  
4 which cannot conveniently be examined in court. See Fed. R. Evid.  
5 1006. Accordingly, a summary chart may be admitted as substantive  
6 evidence when the proponent establishes that the underlying documents  
7 upon which the summary is based are voluminous, admissible, and  
8 available for inspection. Id.; see also United States v. Meyers, 847  
9 F.2d 1408, 1412 (9th Cir. 1988). All that is required for the rule  
10 to apply is that the underlying writings be voluminous and that in-  
11 court examination not be convenient. United States v. Scales, 594  
12 F.2d 558, 562 (6th Cir. 1979). Although the materials underlying the  
13 summary must be "admissible," they need not themselves be "admitted"  
14 into evidence. Meyers, 847 F.2d at 1412.

15 In addition, the summary chart must be accurate, authentic, and  
16 properly introduced. Scales, 594 F.2d at 562. Where a chart does  
17 not contain complicated calculations that would require an expert for  
18 accuracy, authentication of the chart requires only that the witness  
19 (1) have properly catalogued the exhibits and records upon which the  
20 chart is based; and (2) have knowledge of the analysis of the records  
21 referred to in the chart.

22 Neither of these requirements necessitates any special  
23 expertise. The person who supervises the compilation of the summary  
24 chart is the proper person to attest to its authenticity and  
25 accuracy. Id. at 563. In addition, summary charts may be used by  
26 the government in its opening statement. Indeed, "such charts are  
27 often employed in complex conspiracy cases to provide the jury with  
28 an outline of what the government will attempt to prove." United

1 States v. De Peri, 778 F.2d 963, 979 (3d Cir. 1985) (approving  
2 government's use of chart); United States v. Rubino, 431 F.2d 284,  
3 290 (6th Cir. 1970) (same).

4 Also, apart from Rule 1006, a summary of evidence may be  
5 presented to the jury with proper limiting instructions. Rule 611(a)  
6 recognizes that the trial court must "exercise reasonable control  
7 over the mode and order of interrogating witnesses and presenting  
8 evidence so as to (1) make the interrogation and presentation  
9 effective for the ascertainment of the truth, [and] (2) avoid  
10 needless consumption of time . . . ." Fed. R. Evid. 611(a); see also  
11 United States v. Gardner, 611 F.2d 770, 776 (9th Cir. 1980) (in tax  
12 case, use of chart summarizing defendant's assets, liabilities, and  
13 expenditures "contributed to the clarity of the presentation to the  
14 jury, avoided needless consumption of time, and was a reasonable  
15 method of presenting the evidence").

16 **Q. Scope of Conspiracy and Inextricably Intertwined Acts**

17 Among other violations, defendant is charged with conspiracy to  
18 violate the Arms Export Control Act, engaging in unlawful brokering  
19 activities without a license, and conspiracy to transfer and to use  
20 missile systems designed to destroy aircraft. These allegations stem  
21 from defendant's numerous transactions and negotiations involving the  
22 weapons systems, munitions, defense services, and other controlled  
23 items, including those listed in the First Superseding Indictment  
24 ("FSI") (collectively, "the FSI commodities"). Beyond the FSI  
25 commodities, the evidence reflects that defendant also engaged in  
26 other illicit transactions and negotiations involving a wide array of  
27 other defense articles and services.  
28

1 In many instances, defendant's own communications with his co-  
2 conspirators as to the FSI commodities also simultaneously reference  
3 other defense articles and services not specifically enumerated in  
4 the FSI. In such instances, defendant's engagement in illegal  
5 brokering activities relating to FSI commodities as well as other  
6 controlled items in the same communications clearly "constitutes a  
7 part of the transaction that serves as the basis for the criminal  
8 charge." United States v. Vizcarra-Martinez, 66 F.3d 1006, 1012 (9th  
9 Cir.1995) ("Thus, when it is clear that particular acts of the  
10 defendant are part of, and thus inextricably intertwined with, a  
11 single criminal transaction, we have generally held that the  
12 admission of evidence regarding those acts does not violate Rule  
13 404(b)."). Where defendant chose to engage in illegal brokering  
14 activities with regard to a variety of items that he himself lumped  
15 together in a single offer or negotiation, all of the controlled  
16 commodities in which he sought to traffic are "so interwoven with the  
17 charged offense that they should not be treated as other crimes or  
18 acts for purposes of 404(b)." United States v. Loftis, 843 F.3d  
19 1173, 1177 (9th Cir. 2016).

20 **R. Evidence Admissible Under As Direct Evidence or Under Rule**  
21 **404(b) of the Federal Rules of Evidence**

22 The government has given notice of its intent to offer evidence  
23 that in 2015, during the charged conduct, defendant procured a  
24 fraudulent Ukrainian travel document in a false name in order to  
25 conceal his true identity and facilitate his illegal activities,  
26 which involved substantial international travel. As articulated in  
27 the government's notice and in its opposition to defendant's motion  
28 in limine to preclude this evidence, the evidence is admissible as

1 direct evidence showing defendant's consciousness of guilt. It is  
2 also admissible pursuant to Rule 404(b) as evidence of defendant's  
3 intent, preparation, plan, knowledge, absence of mistake, and lack of  
4 accident. The Court reserved ruling on this issue.

5 In the event that the government does not offer this evidence in  
6 its case in chief (either because the Court precludes it or because  
7 the government elects not to offer it), this evidence would be proper  
8 on cross-examination of defendant and/or in rebuttal should defendant  
9 testify. In addition to its admissibility as evidence of  
10 consciousness of guilt and intent, this evidence of defendant's  
11 participation in a fraudulent transaction and his use of false  
12 statements is probative of his truthfulness.

13 The fact that defendant's pursuit of this fraudulent transaction  
14 and use of false statements continued until approximately one month  
15 before his arrest further increases the probative value of this  
16 evidence. See Jackson, 882 F.2d at 1448 (noting that "remoteness  
17 remains a relevant factor for the trial court to consider in  
18 assessing the probative value of the evidence," and finding that  
19 conduct 14 years prior was not too remote to probative).

20 Should defendant testify, inquiry and evidence of various other  
21 fraudulent transactions in which defendant has engaged and other  
22 false statements he has made would also be appropriate.

23 **S. Lay Opinion Testimony Regarding Coded Language**

24 A witness who is "not testifying as an expert" may nonetheless  
25 offer testimony "in the form of an opinion" provided the opinion is  
26 "(a) rationally based on the witness's perception; (b) helpful to  
27 clearly understanding the witness's testimony or to determining a  
28 fact in issue; and (c) not based on scientific, technical, or other

1 specialized knowledge within the scope of Rule 702." See Fed. R.  
2 Evid. 701. In this regard, it bears mention that the Federal Rules  
3 of Evidence do not distinguish between "lay witnesses" and "expert  
4 witnesses," but between lay and expert testimony. See J. Cotchett,  
5 Federal Courtroom Evidence, § 701.2 (5th ed. 2008).

6 Under Rule 701, the government may properly ask lay witnesses to  
7 testify about their opinion regarding the content and meaning of  
8 telephone calls and written communications to which they were not a  
9 party. See, e.g., United States v. Ontiveros, 598 F. App'x 482, 484  
10 (9th Cir. 2015) ("The district court properly admitted government  
11 witness Max Torvisco's testimony as lay testimony under Federal Rule  
12 of Evidence 701. Torvisco satisfied Rule 701's perception  
13 requirement because, as a member of the Mexican Mafia, he had  
14 personal knowledge of the contents of the calls and could testify to  
15 known facts, including coded terms used by his co-conspirators.");  
16 see also United States v. Gadson, 763 F.3d 1189, 1212-13 (9th Cir.  
17 2014) (same, regarding testimony of law enforcement officer).

18 Law enforcement testimony regarding jargon and coded language  
19 "may be both expert and lay testimony, depending on the  
20 circumstances." Gadson, 763 F.3d at 1212 (internal quotation mark  
21 omitted). It is well settled that law enforcement officers who have  
22 been involved in an investigation may testify regarding the proper  
23 interpretation of ambiguous conversations based on their  
24 investigative work. See id. at 1209-10 (allowing law enforcement  
25 officer to offer lay testimony regarding proper interpretation of  
26 coded language, and nothing that the officer "had been involved in  
27 the investigation of the drug conspiracy since early 2010," had  
28 included searches of multiple residences, surveillance, and review of

1 prison phone calls); see also United States v. Freeman, 498 F.3d 893,  
2 904-05 (9th Cir. 2007) (officer's interpretation of intercepted phone  
3 calls admissible under Rule 701 where interpretation was "of  
4 ambiguous conversations based upon [the officer's] direct knowledge  
5 of the investigation"); United States v. Simas, 937 F.2d 459, 464-65  
6 (9th Cir. 1991) (admission of lay testimony by law enforcement  
7 officers regarding "their understanding of what [defendant] meant to  
8 convey by his vague and ambiguous statements" was not abuse of  
9 discretion).

10 In this case, the government has notified defense counsel that  
11 SA Peterson will testify regarding his understanding of ambiguous  
12 terms in various communications among defendants and other co-  
13 conspirators. SA Peterson's testimony is permissible as lay opinion  
14 testimony, because it is based on his experience as an investigator  
15 on this case since 2014.

16 **T. Discretion as to Order of Proof**

17 The order of proof is a matter committed to the discretion of  
18 the district court, which may conditionally introduce evidence or  
19 otherwise permit deviations from the natural order of a case. E.g.  
20 United States v. Zemek, 634 F.2d 1159, 1169 (9th Cir. 1980); see also  
21 United States v. Perez, 658 F. 658 (court may admit co-conspirator  
22 statement subject to motion to strike if foundation for admissibility  
23 not laid, so long as the motion to strike would cure any defect);  
24 United States v. Turner, 528 F.2d 143, 162 (9th Cir. 1975) ("The  
25 trial judge has wide discretion in supervising the order of proof in  
26 a conspiracy case."); United States v. Avendano, 455 F.2d 975, 975  
27 (9th Cir. 1972) (calling witnesses out-of-order).

1       The government intends to call several witnesses and requests  
2 that if necessary their schedules be accommodated. In particular,  
3 the government has given notice of an intent to call U.S. State  
4 Department employee Simon Davidson-Hood as an expert to establish  
5 that defense articles and defense services at issue in this case were  
6 designated on the United States Munitions List and that defendant's  
7 conduct constituting in brokering as that term is used in the ITAR.  
8 Mr. Davidson-Hood will also offer percipient witness testimony that  
9 he confirmed that defendant did not have a license from the State  
10 Department to engage in any of the charged conduct. Due to family  
11 obligations, Mr. Davidson-Hood, who resides out of state, must return  
12 home before the evening of November 7, 2018, and must remain there  
13 through November 14, 2018. Because of the possibility that the  
14 government could conclude its case in chief before Mr. Davidson-  
15 Hood's availability re-opens, the government intends to call him  
16 before November 7, 2018. That may either mean calling him before the  
17 SA Peterson or possibly even the undercover agent testifies as to  
18 many of the defense articles and services at issue, or interrupting  
19 SA Peterson's or the undercover agent's testimony to offer Mr.  
20 Davidson-Hood (the government prefers the former as less disrupting  
21 and confusing to the jury).

22       Additionally, the government intends to call as witnesses two  
23 Greek citizens who reside in Athens, Greece. Their testimony is  
24 expected to be very brief. One, a lieutenant with the Hellenic  
25 National Police, will testify that he participated in and observed  
26 the seizure of digital devices from defendant's presence and premises  
27 at and after his arrest in Greece, and that he provided them to an  
28 investigator employed by HSI at the U.S. Embassy Athens. The second,

1 the aforementioned investigator with HSI in Athens, will testify that  
2 he received the digital devices and sent them to HSI in Long Beach.  
3 The defense has declined to stipulate to this expected testimony, and  
4 the government has thus arranged for their travel to Los Angeles.  
5 The government reasonably expects to call both of these witnesses to  
6 testify between November 3-5, 2018, and has accordingly requested  
7 them to be present during that time frame. Should the trial not  
8 proceed according to the timetable the government reasonably  
9 anticipates, the government nonetheless intends to call them during  
10 that time frame in order to permit them to return to Greece, where  
11 they have work and other obligations.

#### 12 U. Transcripts of Recordings

13 The government has prepared written transcripts of the audio  
14 recordings as an aid to the jury in listening to recordings. See  
15 United States v. Turner, 528 F.2d 143, 167 (9th Cir. 1975)  
16 (permitting the transcripts of sound recordings to be used  
17 contemporaneously with the introduction of the recordings into  
18 evidence). Copies of the government's transcripts have been provided  
19 to the defense and are available, should the Court desire them in  
20 advance of trial. The transcripts will be displayed on a screen  
21 simultaneous to the playing of the audio files, but the transcripts  
22 will not be admitted into evidence.

#### 23 V. Stipulations of Fact

24 The government and the defense have entered into and filed a  
25 stipulation to certain facts surrounding the forensic extraction of  
26 data from defendant's digital devices.  
27  
28

1           **W.   Translations**

2           Some of the evidence, including recordings and written  
3 documents, have been translated from a foreign language. The  
4 government and the defense have agreed in principle to enter  
5 stipulations to the accuracy of those translations, and the  
6 government anticipates offering such stipulations when all final  
7 translations have been received.

8           **X.   Rule 15 Depositions**

9           Between June 20, 2018, and June 28, 2018, at the request of both  
10 parties and pursuant to an order of the Court, the government and  
11 defense counsel deposed three foreign witnesses in Tel Aviv, Israel,  
12 and Tbilisi, Georgia. The Court presided over, and defendant Rami  
13 Ghanem attended, those depositions via video teleconference.  
14 Defendant's lead defense counsel, Michael Evans, participated in the  
15 depositions live, and his second defense counsel, H. Dean Steward,  
16 participated via video teleconference from defendant's location.

17          The parties filed a joint motion requesting an order finding the  
18 three foreign witnesses to be unavailable for purposes of Rule  
19 84(a)(5), and permitting them to use the recorded testimony pursuant  
20 to Rule 804(b)(1) and Rule 15(h), subject to evidentiary objections  
21 that may be raised to specific portions of the testimony. The Court  
22 granted that motion in a ruling from the bench on October 22, 2018.

23          The government proposes to play substantial portions of the  
24 direct testimony and cross-examination of the three foreign  
25 witnesses, with the exception of testimony as to which objections  
26 were lodged and sustained. The defense has indicated its assent to  
27 that proposed procedure. No foundational or other witness is  
28 required to introduce the testimony.

1 During the depositions, the Court received certain exhibits that  
2 were separately offered by both parties. The government proposes to  
3 halt the deposition play-back immediately prior to the discussion of  
4 each exhibit that was admitted into evidence, and publish the exhibit  
5 at issue, so that the jury may review it during that portion of the  
6 deposition testimony.

7 **V. AFFIRMATIVE DEFENSES**

8 **A. Entrapment**

9 Defendant has given notice of an intent to pursue an entrapment  
10 defense as to Counts One through Four of the Trial Indictment.  
11 Entrapment is "a relatively limited defense." United States v.  
12 Russell, 411 U.S. 423, 434 (1973). It is rooted in the notion that  
13 criminal liability should not lie where the government induced a  
14 defendant to commit crimes that he would not otherwise have been  
15 inclined to commit. Id. at 434-35. The entrapment defense does not  
16 apply to the brokering violations alleged in Counts Five and Six, nor  
17 does it apply to the anti-aircraft missile trafficking violations  
18 alleged in Count Seven.

19 The entrapment defense has two elements: 1) defendant was  
20 induced to commit the crime by a government agent, and 2) defendant  
21 was not otherwise predisposed to commit the crime. To establish that  
22 defendant was not entrapped to commit the crimes alleged in Counts  
23 One through Four, the government must thus prove beyond a reasonable  
24 doubt either that defendant was predisposed to commit those offenses,  
25 or that he was not induced by a government agent to commit them.

26 For its case in chief, the government has prepared a relatively  
27 streamlined presentation of the massive volume of relevant evidence  
28 uncovered by the investigation. However, should defendant pursue the

1 entrapment defense, the government would present a far more robust  
2 sampling of the multitude of evidence showing defendant's vast,  
3 varied, and far-reaching arms-trafficking activities in order to meet  
4 its burden to show that defendant was predisposed to enter into the  
5 discrete and comparatively small transaction involving the undercover  
6 agent. Depending on what defendant offers, the government may also  
7 rebut it with additional evidence as to the lack of inducement by any  
8 government agent.

9 **B. Public Authority**

10 Defendant gave notice of intent to pursue a defense of public  
11 authority in February 2018, as required by Rule 12.3 and the order of  
12 this Court. Rule 12.3 specified that for "any defense of actual or  
13 believed public authority," this notice was required to identify: 1)  
14 the law enforcement agency or federal intelligence agency on whose  
15 behalf defendant claimed to have acted, 2) the agency member on whose  
16 behalf defendant claimed to have acted, and 3) the time during which  
17 defendant claimed to have acted. Defendant's notice listed one U.S.  
18 agency, namely "Homeland Security ICE," and one individual, namely a  
19 source of information (SOI) used by the government to introduce the  
20 undercover agent to defendant, as the "agency member." No other U.S.  
21 agencies were identified as purported sources of actual or believed  
22 public authority for defendant's criminal violations. Defendant's  
23 notice also listed a foreign entity, namely "Libyan Defense  
24 Ministry/Crisis Operations Management Room," and agency members as  
25 "Prime Minister Khalifa al-Ghawil and members of the Libyan Defense  
26 Ministry/Crisis Operations Management Room."

27 In April 2018, as required by Rule 12.3 and multiple orders of  
28 the Court, defendant provided a list of witnesses in support of his

1 public authority defense, which gave notice of defendant's intent to  
2 rely on twelve witnesses in support of his noticed defense of public  
3 authority. Armed with those required notices, the parties proceeded  
4 to litigate the availability of a defense of actual or believed  
5 public authority in this case. That litigation, and the Court's  
6 resulting order, were premised on the notice that defendant provided  
7 as required by Rule 12.3.

8 In a written order dated June 21, 2018, the Court granted the  
9 government's motion to preclude defendant's noticed public-authority  
10 defense. (CR 265) Finding that the SOI had no actual authority to  
11 sanction defendant's crimes, the Court held that defendant was  
12 precluded from premising an affirmative defense of public authority  
13 on his contact with the SOI. (Id.) The Court further held that  
14 defendant was precluded as a matter of law from presenting a defense  
15 that Libyan individuals gave him public authority to commit the  
16 crimes charged. (Id.)

17 On September 28, 2018, defendant gave notice of his intent to  
18 call one witness, Aref Al Zaben. On October 12, 2018, defendant  
19 attempted to give belated notice that Mr. Al Zaben would support his  
20 defense of public authority. The government has moved to exclude  
21 evidence from this witness as irrelevant, inadmissible hearsay,  
22 precluded by failure to give the notice required by Rule 12.3 within  
23 the time frame set by the Court and the Rule, and precluded by the  
24 Court's prior order. The Court has ordered defendant to provide a  
25 more detailed offer of proof by October 29, 2018.<sup>6</sup>

---

26  
27 <sup>6</sup> The Court has further ordered defendant not to disclose  
28 classified information, a prospect raised by certain elements of Mr.  
Al Zaben's background. As noted in the government pleadings on this

1           C.    Other Affirmative Defenses

2           Defendant has not given notice of any other affirmative  
3 defenses.
